SEMICAPS Technical Forum 2012

Singapore - 3 July, 2012 - SEMICAPS Pte Ltd hosted and sponsored a half-day Failure Analysis (FA) Technical Forum and Dinner at Orchard Parade Hotel, Singapore. Attendance was by invitation only.

At the forum, the four invited guest speakers discussed and shared topics of primary importance to the FA industry. These include updates on challenges, issues and benefits of advanced techniques.

Panelists in the Question & Answer discussion that ensued included Mr Swee Yong Khim, Senior Staff Engineer, Qualcomm Singapore, Dr. Mike Bruce, co-inventor of PICA, RIL, SDL, Dr. Goh Szu Huat, Section Manager of Product Diagnostic Solutions, GLOBALFOUNDRIES Singapore, and Associate Professor Chen Xudong from National University of Singapore. This session was chaired by Dr. David Tan, Business Development Director, SEMICAPS.

Questions centered on aspects of Solid Immersion Lens (SIL) Microscopy Theoretical foundations, Device Logic Analysis as well as Wafer Level Electrical Fault Isolation. The forum ended with a sumptuous seven-course dinner at Tung Lok Classic Orchard Singapore.
